(From Vehicle Located on a Towing Company Storage Lot)

April 20, 2019

This document is **only** to be used as a <u>guide</u> on understanding the use of this form. Please consult an attorney if any legal issues arise due to the use of this form.

ADOT Motor Vehicle Division released updated versions of Request for Release of Vehicle Form and Removal of Personal Property Form that went into effect on January 1, 2019, per ARS 28-4847. The intent of these forms was to simplify the release documents required by insurance companies to reclaim a vehicle from towing companies after an accident. **ARS 28-4847** specifies what information the forms are to have on them and specifies that these forms are to be used for vehicles being released *following an accident*.

Please Note: Making sure **all** of the relevant boxes are filled out correctly for each release and that all signatures have been completed is recommended for each release when these forms are used.

Section 1 (Required) - If an **owner OR an insurance company representative** picks up the personal property, this section must be filled out.

Section 2 – If the personal property is being released to the **owner or lienholder**, following an accident, they are to fill out this section.

Section 3- If the personal property is being released to a **Designated Insurance Company Representative or Third Party Designee (i.e. auction house, body shop or transportation broker), following an accident, they are to fill out this section. In the first paragraph, the insurance company** would put their name in **both locations**.

Anyone picking up a vehicle or personal property must provide a government issued photo identification and proof of ownership as the bottom of this form states. This form serves as "An insurance company release pursuant to section 28-4847" and must accompany a government issued photo ID in order to be accepted.
